Skype: Diogu NkeJesus

OBJECTIVES

As a driven and goal-focused professional, I bring 2 years of experience in providing production support for Oracle FCUBS v14.x. My technical expertise includes deploying units on Oracle Weblogic Server and creating/modifying webservice APIs for integrating third-party applications. I am seeking a role to further develop my skills as a Flexcube Specialist.

SKILLS

Proven leadership capabilities.

Outstanding problem-solving skills.

Effective communicator.

Reliable and trustworthy.

SUMMARY OF EXPERIENCE

- 2 years of onsite experience in FCUBS 14.x production issues (under modules like CL, TD, CASA, RT, EOD, FA, FT, IC, ICCF, etc.), deployments of units on Weblogic managed servers, and generating webservice APIs to integrate 3rd party applications.
- ALX-Holberton Inc. Certified Software engineer.
- Oracle cloud Infrastructure 2024 certified Foundations Associate.
- Well-versed in PL/SQL, WebLogic Server 12c, and Oracle Database 12c and 19c.
- Good usage of WinSCP, SOAP UI, jd-gui and UNIX Shell Scripting using PuTTY.
- 10months post live support in LAPO Microfinance Bank, Nigeria.
- Gateway Web services Integration for pCash - flexible savings mobile application for LAPO MfB, Nigeria.
- Ongoing production/UAT FCUBS 12.0.1 Onsite Support in Polaris Bank, Nigeria.
- Ongoing onsite support on FCUBS 14.7 Implementation Support in Polaris Bank, Nigeria.
- Ongoing onsite Experience during Implementation of FCUBS 14.7 in Polaris Bank, Nigeria

Organization : ARRAVO GLOBAL SERVICES
Designation : APPLICATION SPECIALIST (ORACLE FLEXCUBE)
Duration : 2024 till date

PROJECT EXPERIENCE HIGHLIGHTS

Project-1

Project Name : Post live support of FCUBS (v14.3)
Technology : PL/SQL, Weblogic, SOAP UI, WinSCP.
Role : Flexcube Specialist
Client : LAPO Microfinance Bank, Nigeria.

Key Activities:

- Support for production issues related to Consumer Lending, Retail Teller Transactions, End-of-Day (EOD) processes, CASA, Term Deposits, General Ledger (GL), Fixed Assets (FA), etc. for FCUBS.
- Creation of Oracle DB data sources, schemas, tables, indexes, stored procedures and views
- Deployments of fixes on managed servers
- UNIX Shell Scripting using PuTTY for Oracle Weblogic Server Management, clearing of server cache, file/folder manipulation.
- Report generation using Oracle Business Intelligence Publisher
- EOD Support during onsite stay.
- EOY Support

Project-2

Project Name : Gateway Web services Integration for pCash - flexible savings mobile application
Technology : PL/SQL, Weblogic, SOAP UI, WinSCP, PuTTY
Role : Flexcube Specialist
Client : LAPO Microfinance Bank, Nigeria.

Key Activities:

- Modification of the nodes used in carrying out successful testing.
- Technical resource in deploying of the web services and testing

Project-3

Project Name : Implementation of FCUBS (v14.7)
Technology : PL/SQL, Weblogic, SOAP UI.
Role : Flexcube Specialist (Technical)
Client : Polaris Bank, Nigeria.

Key Activities:

- Participated in the PWT sessions on all Modules of FCUBS 14.7 including OBARN, OBPM, OBTF, OBTR, OBCL and OBCLM.
- Help facilitate Core-User Training sessions on OBCLM, OBTF and OBCL

Project-4

Project Name : Post live support of FCUBS (v12.0.1)
Technology : PL/SQL
Role : Flexcube Specialist
Client : Polaris Bank, Nigeria.

Key Activities:

- Supporting post activities and post live production issues on all Modules.
- UNIX Shell Scripting using PuTTY for Oracle Weblogic Server Management, clearing of server cache, file/folder manipulation.
- Creation of Oracle DB data sources, schemas, tables, indexes, stored procedures and views.
- Resolving issues arising from EOD execution.
- EOY Support.

Project-5

Project Name : Implementation of FCUBS 14.7
Technology : PL/SQL, Weblogic, SOAP UI.
Role : Flexcube Specialist (Technical).
Client : NBS Bank Plc, Malawi.

Key Activities:

- Modification of the nodes used in carrying out successful testing.
- Technical resource in deploying of the web services and testing

Project-6

Project Name : Post live support of FCUBS (v14.5)
Technology : PL/SQL, Weblogic, SOAP UI
Role : Team Lead
Client : Airtel PSB

Key Activities:

- Modification of the nodes used in carrying out successful testing.

- Technical resource in deploying of the web services and testing
- Support for production issues related to Consumer Lending, Retail Teller Transactions, End-of-Day (EOD) processes, CASA, Term Deposits, General Ledger (GL), Fixed Assets (FA), etc. for FCUBS.
- Creation of Oracle DB data sources, schemas, tables, indexes, stored procedures and views
- Deployments of fixes on managed servers
- UNIX Shell Scripting using PuTTY for Oracle Weblogic Server Management, clearing of server cache, file/folder manipulation.
- EOD Support during onsite stay.
- EOY Support
